

## Product description

**Product name** KRAS 2B  
G12C/C118A mutant

**Catalog number** RA119550

**Uniprot ID** P01116-2

Human KRAS isoform 2B plays an important role in the regulation of cell proliferation and in promoting oncogenic events. In particular, KRAS G12C mutation predominates in NSCLC (Non small cells lung cancer), as well as in pancreatic and colorectal cancer.

**Synonyms:** GTPase Kras, K-Ras 2, c-K-ras, Ki-Ras

## Protein sequence

## Product features and protocols

Purity

>95%  
as determined by SDS-PAGE

SDS-PAGE gel analysis of KRAS 2B G12C/C118A protein Reducing/Heated conditions (RH) and stained with Coomassie blue.

## Other features

Predicted MW	21.19 kDa
Expression System	<i>E. coli</i>
Purification Tag	PolyHis tag at the N-terminus end
Protein content	Determined by BCA assay with BSA as standard
Formulation	Lyophilized from 20 mM HEPES, pH 7.5, 150 mM NaCl and 2 mM MgCl <sub>2</sub> buffer.

## Product preparation

For product preparation we recommend the following steps:

1. Briefly centrifuge the tube before opening
2. Reconstitute by adding the appropriate volume of ultrapure water for a final concentration of 200 µg/ml (e.g. 50 µl for 10 µg or 250 µl for 50 µg conditioning)
3. Vortex gently to insure complete dissolution
4. Wait 15 minutes at room temperature before proceeding further
5. Vortex gently again and centrifuge **briefly**

## Product storage

The product is lyophilized and shipped at room temperature. **Store at -80 °C upon receipt.**

After reconstitution, the protein can be preserved at 4°C for a few weeks.

### Avoid multiple freeze-thaw cycles

**The product is intended for research use only. Not for diagnostic or therapeutic use.**
